About US

ME PAT Company Limited

We Join Venture (JV) business

Strongly business for Engineering and Financial to Renewable Energy as a combination of professional engineers with experiences in Electrical, Mechanical and Project management of large industrial plants in petrochemical and oil refineries, with more than 20 years of expertise, especially experiences of solar system Rooftop Solar Power and solar roof top, Solar farm and Compatible tracking (re-powering) solar farm integrated electricity. We are also doing the part of consulting and working control, solving the problems of engineering for high building, residential building and factory by engineering team.

- ME PAT in offering customized the best solutions power for the production of:
 - Electricity /Solar Power
 - Steam /Pressurized water
 - Treated water/Hot or cold air
 - Solar energy management system
 - O&M Service
 - Engineering Design, Procurement and Construction (EPC) turnkey

Our turn-key solutions Hybrid power solution Solar include Combined Heat & Power Plants, Boilers & Steam Generators and Waste-to-Energy facilities. Each of these solutions can run on a wide array of fuels- Natural Gas, Biogas, Heavy & Light Oil, Shale Oil, Biomass and Gases released from Industrial Process.

WHAT WE DO

We have the experience and capacity to support all kinds of solar and Tri-gen power projects from inception, throughout the development and construction stages and for the complete life time of the plant.

EPC

Full turn-key EPC responsibility Optimized in-house engineering & design Procurement strategy based on approved tier-1 suppliers Energy storage integration and hybrid solutions Electrical substations **Solar Farm /Tracking Roof and Floating Solar Hybrid Tri-Generation Power** and grid interconnections.

O&M SERVICE

We are experts in O&M for solar power plants, offering a full range of plant monitoring, preventive and corrective maintenance services on customer requirements. Spare parts management remote plant monitoring
Plant availability guarantees

Make customer successful

1. DESIGN ON YOUR NEEDS

We are multi-product specialists. Our extensive product range has the depth and breadth you need. We supply tier-1 Brand for solar equipment.

2. QUALITY NEVER COMPROMISE

We will try our best to help our customers to save their cost, but it doesn't mean we will compromise on quality. It means innovative solution with top quality products and advance technology.

3. 24/7 SERVICES

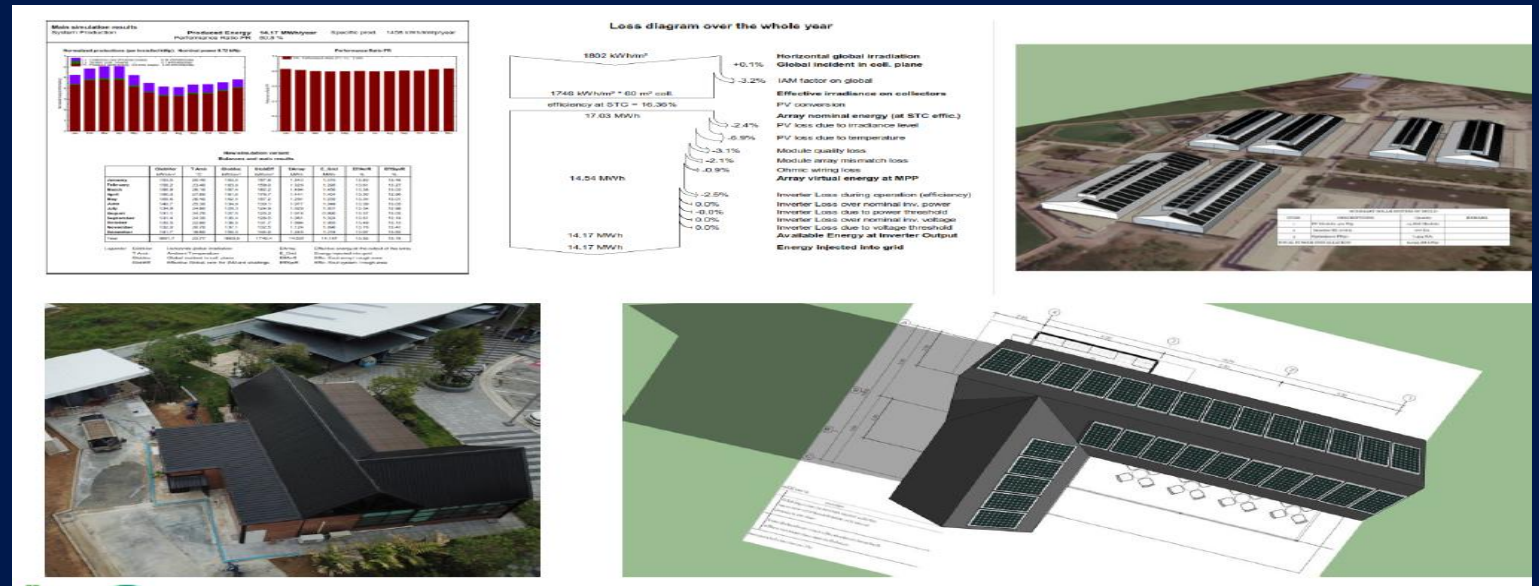

Feel free to call us 24/7, our service team are always standing by there for you. Reducing the downtime of your system is our obligation.

Make customer successful

CO-ENGINEERING WITHOUR CUSTOMERS

Together with our customers, we develop and design high-performance, customized and sustainable solutions that meet all technical challenges. We innovate and co-engineer to reduce your analyze costs, increase efficiency and keep your cost price low.

Make customer successful

Solar Power

Can support and reduce electrical for every business.

No Matter what industry you are in, we can study and supply you a proper system. Our experts have years of experience with applications and installations for your business...

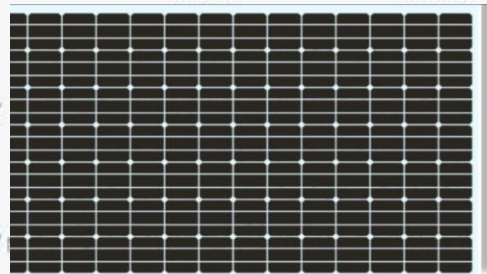

Out top quality Material

PV Solar Ranging Tier-1

Manufacturer	Capacity	Manufacturer	Capacity
LONGi	18,000	Waaree	1,800
Jinko	14,400	Phono	1,620
JA Solar	13,500	Neo Solar	1,620
Canadian Solar	11,700	HT-SAAE	1,350
Risen	9,990	Adani	1,350
QCells	9,630	Vietnam Sunergy	1,350
Trina	9,450	Hengdian	900
First Solar	5,580	Boviet	900
Talesun	5,580	Hendigan	900
Eging	4,680	Ulica	720

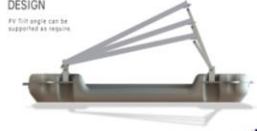

**BIG
MAIN FLOAT
DESIGN**

Compatible with PV Module maximum dimension 1400 x 2400mm.

CUSTOMIZED PV MOUNTING DESIGN

Safety first

We understand that your people are your most important asset. Protecting them is essential.. Our safety performance shows that we are a professional organization that can be a safe and trusted partner.

We provides a safe work environment for all associates, contractors and site visitors and we strive to actively reduce the environmental impact of our activities through our commitment to continuous improvement
